

Storm 1 - June 10

Dunn and Miller described this storm as occurring on June 10. No intensity, damage, or locational information given. They surmise that the storm was probably along the FL west coast. (Dunn and Miller 1964)

Storm termed a "violent gale" at St. Augustine. Dunn and Miller noted the storm and called it a probable storm on the west coast of FL. Sandrik classified the storm as a tropical storm for NE Florida and the lower GA coast. (Sandrik 1999)
