The Evelyn R. and John W. Baugh Graduate Fellowship in Economics

This fellowship was established and funded in memory of Evelyn R. and John W. Baugh and will be awarded to an outstanding entering the Ph.D. student upon recommendation by the department Graduate Studies Committee. The fellowship carries an annual stipend of $20,000 - $23,000 per year (depending upon the status of the gift corpus) with reduced duties of 10 hours per week. The recipient will be assigned as a teaching assistant or research assistant, as appropriate. The fellowship will be renewable up to 4 years, contingent on satisfactory academic progress. There are no restrictions on the student’s fields of interest.

The purpose of the fellowship is to provide additional time for studies and research. While we cannot, in setting up an RA or TA appointment, legally prohibit the recipient from doing engaging in additional outside employment during the academic year, we believe the donors’ wishes (that the student not engage in any other employment during the academic year) are excellent guidance in terms of successful progress in the student’s career. All applicants and recipients should inform the Graduate Director of any plans to engage in any other remunerative activity during the academic year.
